

Welcome to Skipton Castle!

When we arrived we were greeted by
two guides

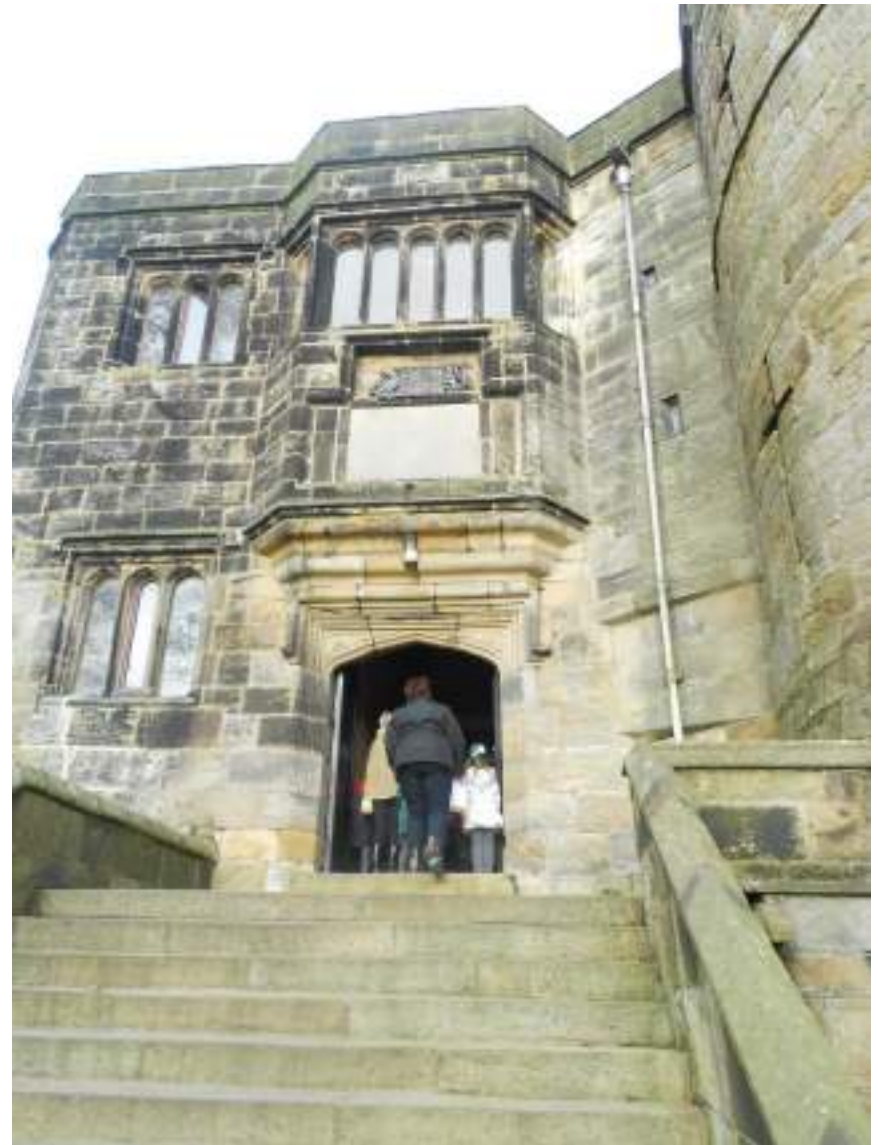

They told us lots of interesting facts about the castle

The castle coat of arms is above the main door.

The extension to the right of the castle was built as a wedding present

Children used to throw boulders off the top of the tower and they would bounce off the skirt at the bottom to batter the approaching enemy!

The fireplace was so big we could all fit in it!

We all got shut in the dungeon!

The view through an arrow slit

A giant twisted the tree trunk when he tried to pull it out of the ground!

We all had a look down to see what was at the bottom of the toilet!

What a great day!
